# IMPORTANT SAFEGUARDS & CAUTIONARY INFORMATION

**FOR YOUR SAFETY, CAREFULLY READ ALL INSTRUCTIONS BEFORE OPERATING YOUR NUTRIBULLET.**

## ELECTRICAL SAFETY

When using any electrical appliance, basic safety precautions should always be observed, including the following:

- Caution! To avoid risk of electric shock, never immerse the power cord, plug, or Power Base of blender in water or other liquids.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.

- **DO NOT USE THE NUTRIBULLET WITH ANY TYPE OF ADAPTOR OR VOLTAGE CONVERTER DEVICE.**
- **USE OF ADAPTERS AND CONVERTERS IS CONSIDERED AN UNAUTHORISED MODIFICATION OF THE NUTRIBULLET AND AS SUCH WILL VOID THE WARRANTY. USE OF THE NUTRIBULLET IN AREAS WITH DIFFERENT ELECTRICAL SPECIFICATIONS MAY RESULT IN DAMAGE TO THE PRODUCT.**
- **UNPLUG THE NUTRIBULLET WHEN IT IS NOT IN USE. MAKE SURE THE POWER BASE IS UNPLUGGED BEFORE ASSEMBLING, DISASSEMBLING, ADDING ADDITIONAL PARTS, OR CLEANING.**
- **IF THE POWER BASE DOES NOT STOP AFTER ONE MINUTE, UNPLUG IT AND CALL CUSTOMER SERVICE.**

- Do not pull, twist, or damage the power cord.
- Do not allow the power cord to hang over the side of the counter or table.
- Do not allow the power cord to touch hot surfaces, including hob surface.
- Periodically inspect the power cord and plug for signs of damage. Never operate any appliance with a damaged power cord or plug.
- If the NutriBullet malfunctions or is dropped, or damaged in any manner, discontinue use and contact Customer Service for further assistance.
- At all times, avoid contact with moving parts.
- Keep hands and utensils away from the cutting blade while chopping or blending food to reduce the risk of severe personal injury or damage to the device. A scraper may be used, but only when the blender/food chopper is not running and the NutriBullet is unplugged.

- **NEVER LEAVE THE NUTRIBULLET UNATTENDED WHILE IT IS IN USE.**
- **CLOSE SUPERVISION IS NECESSARY WHEN USED BY OR NEAR CHILDREN.**
- To prevent overheating, never allow the motor to run for more than one minute at a time, as this may cause damage to the motor as well as increase the thermal pressure inside the cup which can cause personal injury.
- If the motor stops for any reason, unplug the Power Base and let it cool for at least an hour as this will reset the internal thermal breaker.
- To reduce the risk of injury and leakage, make sure the blade base is securely screwed onto the cup before placing it on the Power Base and operating the NutriBullet.
- Do not use NutriBullet outdoors. Do not allow the NutriBullet to be exposed to inclement weather elements such as rain or other wet conditions.
- **BLADES ARE SHARP. HANDLE CAREFULLY.**
- **NEVER INSERT THE BLADE INTO THE POWER BASE WITHOUT FIRST ATTACHING THE CUP.**

**• WE RECOMMEND REPLACING YOUR EXTRACTOR BLADE EVERY 6 MONTHS OR AS NEEDED FOR OPTIMAL PERFORMANCE. TO ORDER A REPLACEMENT BLADE, SIMPLY VISIT: [WWW.NUTRIFAMILY.CO.UK](http://WWW.NUTRIFAMILY.CO.UK)**

- Check gasket to make sure it is completely seated in the Extractor Blade before each use.
- The NutriBullet is not intended for use in microwave ovens. Do not place the NutriBullet cups, Power Base or any accessories in a microwave as this may result in damage to its various parts.
- To reduce the risk of personal injury or damage to the device, keep hands and utensils away from the cutting blade.
- Never blend carbonated beverages. Built-up pressure from released gases can cause the sealed cup to burst, resulting in possible injury.
- **Do not put hot liquids in any of the blending vessels before blending. Start with cool or room temperature ingredients. Heated ingredients can create internal pressure in a sealed blending vessel, which may erupt on opening and cause thermal injury. When opening vessels after extraction, possible pressure may be released. Make sure the vessel is pointing away from the body when opening the cup and blade assembly.**
- **CAUTION! Friction from the rotating blade can cause ingredients to heat and generate internal pressure in the sealed vessel. Do not continuously operate for more than one minute. If the vessel is warm to touch, allow it to cool before carefully opening it pointed away from your body.**
- **Never permit any blended mixture to sit inside a sealed vessel without first releasing internal pressure.**

- **Do not allow blended mixtures to sit for long periods of time in a sealed container. The sugars in the fruit and vegetables can ferment, creating gas and causing pressure to build up and expand in the vessel which can cause ingredients to burst and spray out when moved or opened.**
- Never use the NutriBullet to blend ingredients without adding liquid in as doing so may damage the blade.
- The cyclonic action of your NutriBullet requires the use of liquids to make NutriBlasts and other nutritious beverages. The NutriBullet is not intended to be used as an ice crusher, and not without liquids. To make a delicious cold NutriBlast, we suggest that you use frozen fruit and chilled liquids. Alternatively, you may add crushed ice, up to 25% of the total cup volume, with water or other liquid filled up to the “MAX” line. Do not crush ice or other hard items without liquid, as such prolonged use over time may dull or damage the blades. Always inspect your blades before each use.
- Never remove the cup and blade assembly from the Power Base until the motor comes to a complete stop. Removing the cup/blade assembly while the Power Base is still running may cause damage to the blade coupling or motor gear.

### **WARNING: VENTILATION CAUTION**

- **Always operate the NutriBullet on a level surface, leaving unobstructed space beneath and around the Power Base to permit proper air circulation. Slots and openings on the bottom of the NutriBullet are provided for ventilation to ensure reliable motor operation and to prevent over-heating. Warning: To prevent fire hazard, Power Base openings should be free of dust or lint and never obstructed with flammable materials such as newspapers, tablecloths, napkins, dish towels, or place mats.**

## **SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY**

### **WARNING!**

- **IF YOU ARE TAKING ANY MEDICATION, ESPECIALLY CHOLESTEROL-LOWERING MEDICATION, BLOOD THINNERS, BLOOD PRESSURE DRUGS, TRANQUILIZERS, OR ANTIDEPRESSANTS, PLEASE CHECK WITH YOUR DOCTOR BEFORE CONSUMING ANY OF THE NUTRIBLAST RECIPES.**
- **THE FOLLOWING LIST OF SEEDS AND PITS CONTAIN CHEMICALS THAT RELEASE CYANIDE INTO THE BODY WHEN INGESTED. DO NOT USE THE FOLLOWING SEEDS AND PITS IN THE NUTRIBULLET: APPLE SEEDS, APRICOT SEEDS, CHERRY PITS, PLUM PITS, AND PEACH PITS.**

### **CLEANING SAFEGUARDS**

- **RINSE BLADES (AND CUPS) IMMEDIATELY AFTER USE TO PREVENT DEBRIS FROM DRYING AND STICKING TO VESSELS — IF NECESSARY, USE A DISH BRUSH TO LOOSEN ANY DEBRIS.**
- **HAND WASH ONLY WITH MILD DISH SOAP AND WARM WATER (NOT HOT).**
- **DRY IMMEDIATELY.**
- **FOR TOUGH DEBRIS, FILL THE CUP ½ FULL WITH WARM (NOT HOT), MILD SOAPY WATER. THEN, SIMPLY TWIST ON THE BLADE, POP IT ON THE BASE AND GIVE IT A RUN FOR 30-45 SECONDS. FOLLOW UP WITH A QUICK BRUSH.**
- **DO NOT PUT THE BLADES IN THE DISHWASHER AS ELEVATED TEMPERATURES CAN DAMAGE GASKETS. SIMPLY HAND WASH WITH WARM, MILD SOAPY WATER.**
- **THE NUTRIBULLET CUPS CAN BE WASHED ON THE TOP RACK OF THE DISHWASHER USING THE NORMAL (NOT SANITISE) CYCLE. THE NUTRIBULLET CUPS AND BLADES SHOULD NOT BE IMMERSSED IN BOILING WATER FOR ANY REASON AS THIS WILL WARP THE PLASTIC AND DAMAGE THE GASKET.**
- **WHEN WASHING BLADES, DO NOT ATTEMPT TO REMOVE THE GASKET RING. SIMPLY HAND WASH THE BLADES IN WARM, MILD SOAPY WATER. IF NECESSARY, USE A DISH BRUSH TO LOOSEN DEBRIS. IF DESIRED, THE BLADE AND GASKET MAY BE FURTHER DISINFECTED BY RINSING IN A 10% DILUTED SOLUTION OF WHITE VINEGAR AND WATER OR USE LEMON JUICE. ATTEMPTED REMOVAL OF THE GASKET MAY PERMANENTLY DAMAGE THE BLADE CONFIGURATOIN AND CAUSE LEAKAGE. IF IN TIME A GASKET COMES LOOSE OR DAMAGED, PLEASE CONTACT CUSTOMER SERVICE FOR A NEW BLADE.**

# CLEANING THE NUTRIBULLET

Everyone hates cleaning up, which is just one more reason the NutriBullet is such a wonderful time saver.

## WARNING:

- ALWAYS UNPLUG THE NUTRIBULLET WHEN CLEANING OR ASSEMBLING.

Cleaning the NutriBullet is so easy... simply place any of the pieces (except for the Power Base and blades) on the top shelf of the dishwasher or hand wash with warm soapy water and rinse.

## WARNING:

**DO NOT WASH THE BLADES IN THE DISHWASHER. THE NUTRIBULLET CUPS CAN BE WASHED IN THE DISHWASHER BUT ONLY ON THE TOP RACK USING THE NORMAL (NOT SANITISE) CYCLE. THE NUTRIBULLET CUPS AND BLADES SHOULD NOT BE IMMERSSED IN BOILING WATER FOR ANY REASON AS THIS WILL WARP THE PLASTIC AND DAMAGE THE GASKETS.**

## STUBBORN CLEANUP

If ingredients dry inside the NutriBullet, make your cleanup a snap by filling the cup about  $\frac{2}{3}$  full with warm soapy water and screw on the Extractor Blade. Place the cup assembly on the NutriBullet Power Base for about 20-30 seconds. This will loosen the stuck ingredients, and with a light scrub, you'll be all done.

## CLEANING THE NUTRIBULLET POWER BASE

For the most part the Power Base doesn't really get dirty, but if you neglect to twist the blade on to the cup tightly, liquids can leak out and get into the base and activator buttons.

Here's how to clean it up.

**Step 1:** The most important thing is to UNPLUG the Power Base before cleaning!

**Step 2:** Make sure the blade is not attached to the Power Base.

**Step 3:** Use a damp cloth to wipe down the inside and outside of the Power Base.

- **NEVER SUBMERGE THE POWER BASE IN WATER OR PLACE IT IN THE DISHWASHER.**
- Never put your hands or utensils near the moving blade and never use your hands or utensils to press the activator buttons down while the Power Base is plugged in.

# SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

## STAINLESS STEEL VESSEL WARNINGS:

- **NEVER BLEND HOT LIQUIDS OR FOOD OR CARBONATED BEVERAGES.**
- **NEVER BLEND FOR MORE THAN ONE MINUTE AS CONTENTS CAN HEAT AND ERUPT UNDER PRESSURE.**
- **DO NOT OPEN UNTIL BLADES STOP.**
- **DO NOT EXCEED THE MAX LINE WHEN FILLING THE CUPS WITH INGREDIENTS. THE MAX LINE IS LOCATED INSIDE THE VESSEL.**

# 12 INTRODUCTION

For busy, active people, good nutrition is a prime concern. Eating wholesome, high quality food ensures you operate at the highest level, whether on the field, in the boardroom, in the classroom, or at home. The problem that so often presents itself, however, is that unprocessed whole food requires more preparation than packaged convenience food—taking time and energy that many don't have in their already busy lifestyles.

Enter the NutriBullet. More than a blender and more than a juicer, the NutriBullet is a powerful nutrition extractor that uses patented technology to transform nutrient-dense greens, vegetables, fruits, nuts, seeds, and other healthful foods into silky-smooth, super-portable NutriBlast smoothies. When enjoyed as a meal replacement or a snack,

NutriBlasts provide all the sustenance of whole fruits and vegetables—fiber, pulp, seeds, and skins included—without any peeling, dicing, slicing, or even chewing, saving you the time, energy, and cleanup required of traditional food preparation.

Prioritising nutrition doesn't have to be inconvenient. Create fast, nourishing meals and snacks with the NutriBullet, and see what happens when you start giving your body the fuel it deserves. We're confident you'll be blasting for a long time to come.

NutriBullet  
*Long live you.*

# GLOSSARY OF TERMS

There's a lot of frequently used terminology in the NutriBullet universe. If you're having trouble distinguishing your Bullet from your Blast, let this list offer some guidance.

## NUTRIBLAST

Or "Blast" for short is the nutrient-extracted drink made in your NutriBullet. Blasts are designed to increase the amount of produce you consume in your daily diet, fitting an average of 5-7 servings of vegetables and fruits into just one beverage.

## NUTRIENT EXTRACTION

Nutrient Extraction is the process by which whole food ingredients are converted into NutriBlasts in the NutriBullet. Engineered to create the most nutritionally dense drinks possible, the extraction process transforms even the toughest ingredients into a silky-smooth consistency. Unlike blenders and juicers, the NutriBullet gives you the health benefits of eating the whole fruit and/or vegetable—fiber, pulp, seeds, skins, and all—via nutrient extraction. Nothing is left behind.

## CYCLONIC ACTION

Cyclonic Action is the patented spinning movement generated by the NutriBullet's components. When Power Base meets Extractor Blade meets Contained Vessel (Colossal Cup) meets gravity, the result is a mini-cyclone that evenly distributes ingredients to the spinning blade, creating the unique silky-smooth extracted texture of your NutriBullet.

nutrition Q&A, and special offers.

## SUPERFOOD

On a basic level, we use the word *superfood* to refer to any food with an exceptional nutritional profile. For example, kale is often considered a superfood due to its nutritional density per relatively small portion. One cup of kale contains over 200% of the recommended daily amount (RDA) of Vitamin A needs and over 100% the RDA of Vitamin C, plus fiber and antioxidants. Other foods we consider to be superfoods include maca, cacao, blue and green algae like spirulina and chlorella, avocado, walnuts, chia seeds, and blueberries, among others.

## NUTRIBULLETED SUPERFOOD BLENDS

NutriBlast Superfoods combine antioxidants, vitamins, and minerals into convenient formulas that mix easily into any smoothie to super charge your overall health and wellness.
